have been entisfactory to the Colonist, as we feel assured it was to reasonable people gen erally; but it appears quite evident that that was not what the Colonist desired. It would have been much better pleased if the Attorney General had given no such assurance of his intention to investigate the matter. That rather upset our neighbor's calculations as to the political capital it would make out of the "East Coast Tragedy," and about "the law taking its course," and all this banter and buncombe about British justice and the threat that "should the Provincial authorities refuse to do their duty, a higher power will be brought into requisition," is just so smuch intellectual powder wasted. The Government will see that justice is done in the premises, but they will choose their own time and the manner they deem best to ac-complish its. It may possibly be gratifying to our contemporary to learn that the Gov-ernment intend to send a gunboat to the East Coast to make full inquiry into the matter. The Cattle Raid.

EDITOR STANDARD :-Your reporter, in giving an abstract of a petition addressed to the Council against the cattle raid of the night of the 12th inst., entirely misrepresented—unin-tentionally, no doubt—the whole tenor of the reach Yale in time for Stage, which communication alluded to. The complain-ants had not the least idea of objecting to the school reserve being closed against cattle Enterprise for Quesnelle, arriving at and horses; some of them think it right and proper that it should be so, and have so ex-pressed themselves. But what they did ob-ject to was, that a raid was made at twelve o'clock at night, without any public notice of the prohibition being given. This is what the petitioners complain of. It was stated in the Council that notices had been given. Private parties may have had notice given them. But though living in the immediate vicinity of the reserve, the complainants have neither seen nor heard of any such notices; they would like to know when and where such notices appeared. Thus you will easily perceive, sir, that a false coloring was given to the communication to the Council, which its contents would not justify. By giving a place to this note in your valuable journal, you will much oblige your obedient

OTTAWA, April 25 .- It is stated that Lieut, Colonel Lester Peters, of St. John, N.B., will be selected to command the Canadian Wim-

General Dispatches.

YREKA, May 9 .- Bill Fenning came into town yesterday, just as we were about to gy to press. He infor The Right Hon. Sir John A. Macdonald afternoon he and Jake Kepler saw Bogus moved the House into committee on the Bill Charley on the north of the Klamath river at ley was upon them before they discovered tested election of members of the House of him. He put out his hand for them to shake and seemed friendly. He had on a soldier's cap and cape, had a gun-muzzle-loader, was on foet, and had with him his squaws, who A number of clauses were passed eliciting were carrying a roll of blankets and a basket of provender and a child. He told them that The committee then rose and reported he was tired of fighting the whites, he has left progress, and asked leave to sit again to the lava beds two mouths ago, and had stopprogress, and asked leave to sit again to-morrow. the lava beds two mouths ago, and had stop-ped some time since at Fairchild's, and had been two or three days last past at Anderson's. Anderson lives on the south side of the Klamath and a little above where the conversation took place. It is evident that the most of Bogus Charley's story was a tissue of falsebood, as it is not one month since be assisted at the massacre of Canby and Thomas. When asked where he was going, he returned no definite answer, simply nodding his head to indicate that he was traveling down to Klamath. Although he claimed to have left the lava bed about two months ago, he seemed to be perfectly informed about what has taken place to the present time. He said that the Indians had killed a great many soldiers, and that there had been twelve Indians killed; a part of them squaws. He said a son of Sconchin had been killed by a shell, but

that Sconchin himself was not hurt. Captain Bogus Charley being found in the condition in which he was, may perhaps indicate that the Indians have left the lava beds and scattered abroad over the country, each looking for his own s fety. It is reported that several persons, Champlain in the number, saw him at Anderson's. It is certain, also, that he passed down the river. Neither Fen-

ning nor Kepler had arms with them when LAVA BEDS, May 10 .- VIA YREKA, May 12 .-On the 9th inst. an expedition for the recovery of the bodies of Lieut. The purchase would include the Land, Buildings, Machinery, Plant, Stock-in-Trade and goodwill of the business, all of which it is proposed shall be taken at a valuation to be made by competent disintersated persons. The Boot and Shoe Department has for the past two years been carried on under the management of Mr. Switzer, almost exclusively by Chinese labor, at a small cost, but the recent addition of the Tannery, which was found a necessity, in order to maintain a sufficient upply of good material, has required a considerable outlay, and renders the introduction of further capital necessary for the proper development of the business. or the proper development of the business.

The Factory is well arranged, and is fitted with the nost approved Machinery.

The Tannery has every appliance for the saving of The Water Power which is utilized for the conduct of Works, is all that could be desired, and could readily be increased to ten times its present power, if at any time required, either for the purposes of this undertaking, or for any other Manufactory. The supply is derived from Springs on the Estate, is very soft in quality, and is never failing.

Springs on the Estate, is very soft in quality, and is never failing.

In fact the business is in thorough working order, and Mr. Switzer's services as Manager of the Werks will be retained upon terms favorable to the Company.

The Land consists of 545 acres, known as the Spring Vale Estate, some of which is of excellent quality.

The Timber is of considerable value for Firewood, the situation being favorable for easy delivery.

The operations of the Boot and Shos Manufactory during the past two years have been highly satisfactory.

The goods are specially adapted to the requirements of the Provincial trade, have given general satisfaction, and at a profit successfully compete with the imported article.

and at a pront successfully compete with the imported article.

The sales for 1872 amounted to nearly \$30,000, which, considering the short time the enterprise had been in operation, shows the favor with which the products have been received.

The importations of Boots and Shoes as declared at the Custom House for the year 1871, was about \$100,000, representing a selling value, after adding duties, etc., of say \$150,000. The importation for last year fell off considerably, the decrease being doubtless partially occasioned by the local production. In addition to the demand for Boots and Shoes, as evidenced by the Customs House returns, the sales of Leather produced at the Tannery have to be taken into account, when considering the entire field for the operations of the undertaking.

The value of industrial institutions to the well being of any country is indisputable, and as the hides produced in the Province are now being manufactured into leather, which in turn is made into Roots and Shoes, &c., (instead of as formerly being exported and the manufactured articles in turn imported,) the saving to the country by the undertaking is sufficiently obvious. It is, therefore, not unreasonable to assume that the advantages which the prosecution of such a reproductive institution insures will, aside from the renumerative character of the business, have due weight with all who are in any way interested in the prosperity of the Province.

It should be remarked that this company will become It should be remarked that this company will become at once possessed of two businesses with established connections, without any interruption to working or loss of time in transfer, and will therefore have from the first day of its possession a revenue from a business which is capable not only of immediate, but, in the future, almost unlimited extension.

Most similar undertakings of any magnitude are now worked successfully by joint stock companies, both in Great Britain and in the United States.

The transfer of the property to the Company will only be made upon terms satisfactory to the Frovisional Board of Directors, based upon the valuation.
